

Emergency Medical Responder (EMR)

Overview

The **Emergency Medical Responder (EMR)** course has been designed to provide the **First Person on Scene** or non-EMS responders with the knowledge and skills necessary to provide immediate lifesaving care to critical patients while awaiting additional EMS resources to arrive.

This course exceeds the requirements of the UK First Person on Scene™ (FPOS)™ Level 3 and First Response Emergency Care (FREC 3) courses.

This course is ideal for Security Professionals (Armed Response/ CPOs), Firemen, Police, Lifeguards, Education Professionals, First Aid Trainers, Cabin Crew.

Entry Requirements

- English literate with a High School Certificate/ Diploma.
- Current certification in healthcare-level CPR training, or Basic Life Support (BLS). BLS training and certification can also be done concurrently as part of the class.
- Learners must be 18 years of age or older to commence the training.

Duration

Initial Class: 48 Hours

Renewal: 16 Hours

Course Content / Modules Covered

EMR course is a dynamic course featuring lecture, video, simulated emergency situations, discussion, and hands-on skill practice. The course is divided into 7 Main Modules.

- Module 1: Preparatory
- Module 2: Airway Management (*Airway & Professional CPR*)
- Module 3: Patient Assessment
- Module 4: Medical (*Medical Emergencies, Poisoning and Substance Abuse, Behavioural and Environmental Emergencies*)
- Module 5: Trauma (*Bleeding, Shock, and Soft Tissue Injuries, Musculo-skeletal Injuries*)
- Module 6: Special Patient Populations (*Childbirth, Pediatric and Geriatric Emergencies*)
- Module 7: EMS Operations

Certification

The EMR training is an ECSI approved training programme that is offered in association with the Academy of Orthopedic Surgeons.

Certification will be done after successful completion of the EMR cognitive (knowledge) and a psychomotor (skills) examination.
