- Stroke
- Acute Coronary Syndromes
- Rescue Breathing
- Bag Valve Mask

- Adult/Child CPR for 1 and 2 or more Rescuers
- Infant CPR for 1 and 2 or more Rescuers
- AED Use and Operation
- Foreign Body Airway Obstruction - Choking.
- Legal and Emotional Aspects

Teaching methods

Traditional Classroom Based

Blended Training - Blended Training combines the convenience of online learning with a shortened practical skills session in order to meet both knowledge and skill objectives for learners. Using an online learning platform to meet knowledge objectives provides flexibility and self-control for the learner and convenience and cost savings for an individual, organisation or employer (**Available for ECSI training only**).

Certification

Subject to assessment all participants will be issued with a CPR for the Professional (Rescuer) or Health Care Provider CPR certificate from one of the organisations below (This is depended on the course taken).

**Emergency Care
and Safety Institute**
An Approved Training Centre

This qualification is valid for 2 years which can be renewed by attending re-qualification course.

Course Dates and Training Venues

“**Open / Public**” courses are scheduled in advance and are held at one of our training venues.

“**Closed / In-House**” courses can be scheduled at a date, time and location determined by you or at a venue arranged by us; dependant on availability of facilitators / instructors (T & C’s apply).

“**Blended Learning**” at your own time and pace however you will need to attend a scheduled practical session and examination at one of our training venues.
